

# IMAGE

A 20-year-old male from a neighboring village comes to the VMMC campaign. He's been waiting all day for his turn for individual counseling. You greet the client respectfully and with kindness. You introduce yourself and ask for the name of the client.

**What is your next step?**

- ☐ Ask the client if his caretaker/parent would like to participate
- ☐ Begin talking about circumcision procedure
- ☐ Ask the client to tell you what he already knows about male circumcision
